Split Spool Features

- Easily replaced spool without dismantling the line shaft
- 2 Piece design
- Screwed and dowelled together
- Black Bearing Plastic
- Available from stock
- Ideal for arduous environments

Connectable Belt Features

- Simply drop the roller, loop the Belt around the line shaft, hook the ends together with the pre-assembled connector, reposition the roller and you are up and running.
- The connectable belt has been designed to quickly and easily replace line shaft-to-roller or roller-to-roller belts on live roller conveyors,

The Metzgar Conveyor Company “Split” Line Shaft Drive Spools and “Connectable Belts” are ideal “Retro-Fit” components for your line shaft conveyor. The spools and belts can be assembled to a 1” diameter drive shaft in minutes, keeping downtime to a minimum.
