“Model 750 Press Belt Conveyor”

Conveyor Features:

The 750 Press Conveyor is designed to convey punch press, formed, cast or similar parts. They are ideal for accepting parts from a machine and conveying them into a bin.

The unit pictured is equipped with the portable caster option.

Standard Features Include:

- 1/2 hp 110vac motor with manual motor starter pre-wired.
- PVC belt with 1-1/2" high cleats.
- Several standard lengths and widths to fit your application.
- Comes as a complete unit (installation is not required).
